

Auto Accident

Your Doctor at Arizona Chiropractic Center is trained in the diagnosis and treatment of traumatic injuries sustained in automobile accidents. Chiropractic treatment has been clearly documented to be safe and effective for the treatment of "whiplash" and back injuries.

Everything you need in 1 convenient location:

- Chiropractic Care
- Massage by Licensed Therapists
- X-ray, Surface EMG, and other diagnostics
- Exercise Rehabilitation
- Spinal Decompression Traction Therapy
- Same Day Appointments

Arizona Chiropractic Center provides a comprehensive approach utilizing state of the art technology and "hands on" treatment for fast, effective pain relief and recovery.

If you or someone you know has been in an automobile accident, there is no reason to suffer. Chiropractic treatment can provide surprisingly quick relief. Remember, automobile insurance pays for your treatment for this type of painful injury, and most times there is NO out of pocket cost! Don't delay! The quicker you start your therapy, the sooner you will be feeling well again.

You can feel confident that the Doctors will help you recover from your injuries and provide you with fast, effective pain relief. We know your time is valuable so we make sure you are given convenient appointments and are seen on time. The team at Arizona Chiropractic Center is dedicated to providing excellence in patient care.

You will receive a detailed consultation and thorough examination that will result in a clear understanding of your condition. The Doctors at Arizona Chiropractic Center work with other medical professions, and should you need a referral, you will be sent in the best direction for your condition.

Referrals for additional medical care and diagnostic test such as MRI, CT, bone scans and nerve studies are easily arranged through our office. These sophisticated tests are crucial to properly diagnose and document your injuries, particularly in medical-legal cases.

Arizona Chiropractic Center utilizes the latest treatment protocols and procedures. This gives you the best chances of a full recovery in the shortest period of time. State of the art electronic diagnostics as well as "hands on" therapy by specially trained Licensed Massage Therapists are utilized to provide quick pain relief and optimum recovery of soft tissue injuries.

Arizona Chiropractic Center emphasizes active exercise and rehabilitation as the cornerstone of your treatment plan. Our facility is equipped and ready to improve your strength and endurance.

Our business office is happy to assist you with any necessary paperwork requested by your insurance company or attorney. Assignment of benefits from your insurance company and attorney liens are gladly accepted.

Steps to remember when you are in an auto accident:

According to the National Safety Council, one in every eight drivers will be involved in a motor vehicle accident this year. That may mean you! Are you prepared? Would you know what to do and what questions to ask?

- Stop your vehicle if it is clear, safe and legal.
- Move the vehicle out of the traveled roadway, if it is clear, safe and legal.
- Turn off the ignitions of the cars involved.
- Make a first aid check of all persons involved in the accident.
- Call the police and, if necessary, emergency medical services.
- Mark the scene of the accident with flares or retroreflective triangles.
- Gather the names of all persons in the motor vehicles and people who witnessed the accident.
- Make a quick diagram of where the vehicle occupants were seated and indicate the vehicles' direction of travel and lane. Also note the date, time and weather conditions.
- Ask to see the other driver's license and write down the number.
- Exchange insurance company information. DO NOT discuss "fault" or make statements about the accident to anyone but the police.
- Get a copy of the police report of the accident.
